Professional Summary

Front End Developer and Software Intern with hands-on experience building responsive web interfaces using HTML, CSS, and JavaScript. Developing React, AngularJS and Next.js proficiency while delivering clean, accessible UI and reusable components. Collaborates effectively in hackathon teams and ships projects to GitHub with clear documentation. Focused on performance, maintainable code, and user-centric design.

Technical Skills

Frontend: HTML, CSS, JavaScript, AngularJS, React (basic), Next.js (basic)

Programming Languages: Python, C, C++, Java

Databases: MySQL, Oracle APEX, MongoDB (basic)

Tools: GitHub, Markdown, Canva, Adobe Photoshop, Overleaf

Experience

Front End Basic Developer

Christ University (AIML, Cyber Security Honours)

Bengaluru, India

2025–Present

- Built and deployed multiple frontend projects using HTML, CSS, and JavaScript, and basic knowledge in front-end frameworks like React, AngularJS and Next.js; maintained version control and documentation in GitHub.
 - Implemented responsive layouts and reusable UI components, improving cross-device consistency and reducing duplicate code.
 - Collaborated with peers to scope features, estimate effort, and iterate quickly on UI feedback during project sprints.
-

Projects

Ecipheryx — Zero-Knowledge Anti-Deepfake Identity Protocol Project

TechX Hackathon

- Built a privacy-preserving identity verification prototype to reduce deepfake impersonation risk.
- Implemented FaceMesh landmark extraction with SHA-256 commitments and zero-biometric-retention flow.

- Added multi-modal spoof checks and adaptive liveness validation (gesture + rPPG signal).
- Integrated Solana-based proof-of-life attestations for verifiable session outcomes.

Tech Stack: Next.js 15, TypeScript, Tailwind CSS, Framer Motion, MediaPipe, Groq SDK, Solana Web3.js, Prisma, PostgreSQL.

Online Shopping System

Academic Team Project

- Developed a full-stack e-commerce platform with collection-style UI, product catalog, cart, and order workflows.
- Built RESTful APIs in Express.js with Prisma ORM and PostgreSQL using a 7-model ER-based schema.
- Implemented JWT authentication, bcrypt password hashing, protected routes, input validation, CORS, and Helmet.
- Used Zustand and TanStack Query for predictable client and server state management in Next.js.

Tech Stack: Next.js 15, TypeScript, Tailwind CSS, shadcn/ui, Framer Motion, Express.js, Prisma, PostgreSQL, JWT, bcrypt, Zustand, TanStack Query, Axios.

Education

B.Tech in Computer Science and Engineering (AIML)

2024–Present

Honours in Cyber Security, Christ University, Bengaluru

CGPA: 3.46 / 4 (After 3 Semesters)

Achievements

Crew AI Hackathon, NEXUS Club (Team of 4)

Dec 2025

TechX Hackathon, IEEE (Team of 4)

Feb 2026
